## RECOMMENDATIONS TO AUTHORS

MALIMBUS publishes Papers, Short Notes, Reviews, Letters and illustrative material covering the field of West African ornithology. Short Notes are articles not exceeding 1000 words (including references) or two printed pages in length. Written contributions are accepted in English or French. Material published elsewhere, in whole or in part, will not normally be accepted.

Contributions, of which two copies are required, should be typed on one side of the paper with double spacing and wide margins. Dot-matrix printouts will only be accepted if they are of 'near-letter quality'. Wherever possible, manuscripts should first have been submitted to at least one ornithologist or biologist for critical scrutiny. Manuscripts of Papers will be sent for critical review to at least one relevant authority.

CONVENTIONS regarding tabular material, numbers, metric units, references etc. may be found in this issue and should be carefully adhered to. Note particularly the following: dates should be in the form 2 Feb 1990 but months standing alone in text may be written in full; times of day are written 06.45, 17.32; coordinates are written in the form 7°46N, 16°04E; numbers up to ten are written in full, except when followed by units (eg 6 m), numbers from 11 upwards are written in figures except at the beginning of a sentence. All REFERENCES mentioned in the article, and only such, must be entered into the bibliography.

Articles containing lengthy SPECIES-LISTS should be tabular format (eg Malimbus 1: 22-28 or 1: 49-54) or of the textual format of Malimbus 1: 36-42 (for short texts per species) or Malimbus 1: 90-109 (for longer texts). The names and sequence in species lists should follow Brown et al. (1982), Urban et al. (1986) and Fry et al. (1988) The Birds of Africa, vols 1-3 (Academic Press, London) for non-passerines and Hall & Moreau (1970) An Atlas of Speciation in African Passerine Birds (British Museum (Natural History), London) or Serle and Morel (1975) A Field Guide to the Birds of West Africa (Collins, London) for passerines, unless reasons for departure from these authorities are stated in the article.

FIGURES should be prepared as for final reproduction, allowing for 20-50% reduction, using Indian ink on good quality white paper or heavy tracing, and Letraset lettering (or equivalent) as appropriate. When designing Figures, pay attention to the page-shape of Malimbus.

All Papers (but not Short Notes) should include a SUMMARY, not exceeding 5% of the total length. The Summary should include brief reference to the major findings of the Paper and not simply review what was done. Summaries will be published in both English and French and will be translated as appropriate by the Editorial Board.

Twenty OFFPRINTS of Papers (but not of Short Notes) will be sent to single authors, gratis, upon request. Five additional offprints will be issued in respect of a second and a third author of a Paper, but they will be photocopies. Offprints will not be stapled, bound or covered; they are merely cut from copies of the journal.

MALIMBUS 11(2) April 1990

CONTENTS

Bienvenue à Notre Nouveau Rédacteur. G.J. Morel	101
Editorial	102-103
Additions to the Avifauna of Nigeria, with Notes on Distributional Changes and Breeding. J.S. Ash	104-116
