## REVISED LIST OF SOUND-RECORDED AFROTROPICAL BIRDS

by C. Chappuis

Received 10 January 1986

The first list of sound-recorded Ethiopian (Afrotropical) birds (Chappuis 1980) permits those interested in resident and visiting birds in Africa easily to locate acoustic references for the large majority of species (about 1400 species out of c. 1900). Since then much new information, often concerning acoustically ill-known species, has appeared: 2191 new references embrace 1141 recordist-references and 1050 disc/cassette references. These data are too numerous to cite in their entirety (particularly concerning common species already dealt with by Chappuis 1980). I have therefore not made a complete revision of the previous list; but give below a complementary list, drawn up according to the following criteria:

- Species not previously recorded: all references are cited.
- Species with 5 disc/cassette references: no further citations given.
- Species with < 5 five disc/cassette references: only new recordings (and holding institutions) are given.
- Species with < 5 references in total: all new references are given (publications, institutions, recordists).

As before, systematic sequence is that of Mackworth-Praed & Grant (1970-1973), with the nomenclature of The Birds of Africa, where different, in parenthesis. For each species the sequence of references is (i) Institution (BBC, BLOWS, COR, FITZ), (ii) published discs or cassettes, and (iii) Recordists, as follows:

(i) BBC: Natural History Unit, Broadcasting House, Whiteladies Road, Bristol BS8 2LR, UK

BLOWS: British Library of Wildlife Sounds, The British Library, National Sound Archive, 29 Exhibition Road, London SW7 2AS, UK

COR: Library of Natural Sounds, Laboratory of Ornithology, Cornell University, 159 Sapsucker Woods Road, Ithaca, NY 14850, USA

FITZ: Fitzpatrick Bird Communications Library, Bird Department, Transvaal Museum, PO Box 413, Pretoria 0001, South Africa

## ACKNOWLEDGEMENTS

I thank all those sound-recordists who have collaborated in this enterprise, and Directors of Sound Libraries: Tony Harris of FITZ, Jim Gullede of COR, and, particularly, Ron Kettle of BLOWS, who may not yet have recorded from my numerous questions. I also thank Denise Claeys, who has patiently updated my files and records.
